

# Vedehi Sharma

Jaipur, India

89496 22987 | vedehi2273@gmail.com

## Objective

---

Aspiring AI/ML Trainee with hands-on experience in Python-based machine learning, data preprocessing, model building, and analysis. Strong foundation in data handling using Pandas, scikit-learn, and visualization tools. Eager to apply theoretical knowledge to real-world problems and grow in a collaborative tech environment.

## Experience

---

- TeamTeample** March 2024 - May 2024  
Account manager
  - Managed event funds and logistics with a team of 12; budgeted ₹2lakh across departments
  - Supported cross-functional roles in marketing, sales, and data-driven event performance analysis
  - Used Excel and Power BI to visualize metrics and enhance decision-making
- Elevate labs** September 2025 - August 2025  
Data analyst internship  
worked on multiple real-world data analytics projects using Python (Pandas, NumPy) and Power BI – cleaning, transforming, and visualizing complex datasets to uncover meaningful business insights.  
  
this internship even more impactful was the structured learning approach – with topic-wise questions and hands-on problem statements accompanying each project. This approach helped me strengthen both my conceptual understanding and practical data analysis

## Education

---

- St. Teresa School Intermediate** 2022  
74.2%
- Banasthali vidhyapith** 2025  
Bca  
7.98

## Skills

---

- Python
- Java
- DSA
- Mysql
- Power BI
- Excel
- Data structure
- Html, CSS, PHP, javascript
- C#
- Node js
- Express js

## Projects

---

- Predictive Modeling using Machine Learning**
  - Built a logistic regression model to predict customer churn with ~85% accuracy using scikit-learn

- Used Pandas for data cleaning and Matplotlib/Seaborn for EDA
- Performed hyperparameter tuning with GridSearchCV
- **Data Analysis Project (Sales Data)**
  - Analyzed retail sales data using Excel, SQL, and Power BI
  - Identified revenue trends, performed cohort analysis, and created interactive dashboards
  - Presented insights to a mock business team as part of a project demo

## Interests

---

- Painting
- Travelling
